

WALA[®]stic

Rabbit Tile 6mm

FOR EXTREME RESILIENCE

The *WALA*stic rabbit tile is fully bonded and then cold and thermally welded. The floor is completely waterproof. To identify different areas, the joints can be welded in different colors.

R12 / V10

WALA^{stic} Rabbit Tile 6mm

Measures: 500 x 500 mm

Thickness: 6 mm

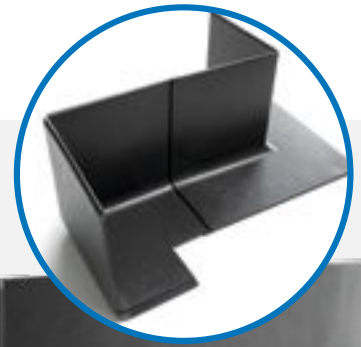

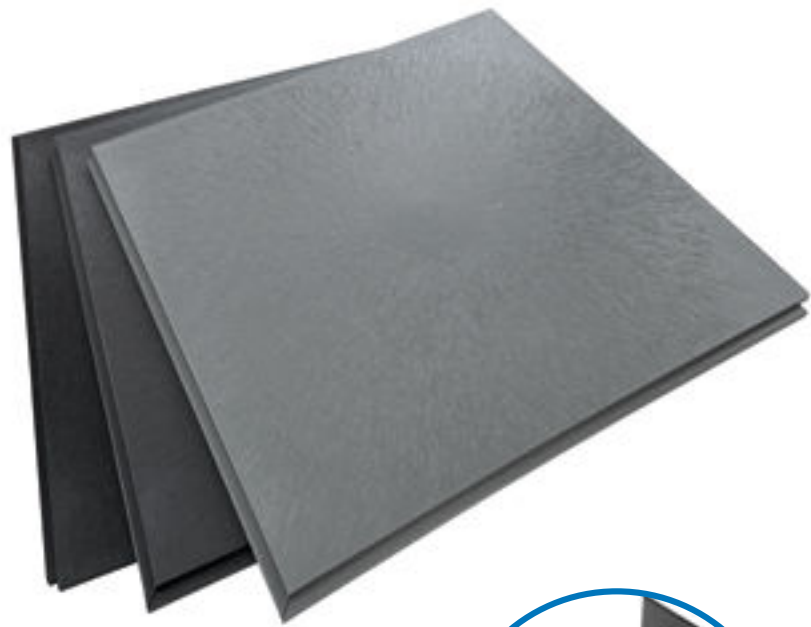

Standard colors:

black, anthracite & grey

Surfaces:

smooth, grained & fluted

Matching step-up tiles, cove moulding
skirting, outside & inside corner

The WALA cove moulding skirting enables our floor tiles to be used in particularly critical areas.

The hygienic, easy-to-clean and visually appealing solution adapts seamlessly to the impact protection for the walls that is often required in this area.
